STANDARD OPERATING PROCEDURE
Bulk transfer
Document No.: SOP-QA-8009
Revision: 02
Effective date: 2026-02-02
Approved by: Grace Okafor

1. PURPOSE
This procedure describes bulk transfer at the Northfield site.

2. SCOPE
Applies to production and warehouse staff.

3. RESPONSIBILITIES

Production owns this procedure; Quality approves it.

4. SAFETY

Wear gloves when handling the material.

5. PROCEDURE

Step 1: Record the batch number in the logbook.
Step 3: Confirm the equipment status label shows clean and in date.
Step 4: The operator shall be trained on this procedure before starting.
Step 5: Check the area is clear of the previous product and its labels.
Step 6: Ensure that the second-person check is signed.
Step 7: Return unused material to the warehouse with its status label.

6. RECORDS

Records are kept for five years after batch expiry.
