STANDARD OPERATING PROCEDURE
Tank cleaning
Document No.: SOP-QA-8007
Revision: 02
Effective date: 2026-02-02
Approved by: Grace Okafor

1. PURPOSE
This procedure describes tank cleaning at the Northfield site.

2. SCOPE
Applies to production and warehouse staff.

3. RESPONSIBILITIES
Production owns this procedure; the
area supervisor approves it.

4. SAFETY
Work under local exhaust ventilation;
the vapour is flammable.

5. PROCEDURE
Step 1: Record the batch number in the logbook.
Step 3: The operator shall be trained on this procedure before starting.
Step 4: Verify the result in accordance to the acceptance criterion.
Step 5: Send the completed record to Quality by e-mail.
Step 6: Ensure that the second-person check is signed.
Step 7: Return unused material to the warehouse with its status label.

6. RECORDS
Records are kept for five years after batch expiry.
