STANDARD OPERATING PROCEDURE
Raw material receipt
Document No.: SOP-QA-9003
Revision: 01
Approved by: Grace Okafor

1. PURPOSE
This procedure describes raw material receipt at the Northfield site.

2. SCOPE
Applies to production and warehouse staff.

3. RESPONSIBILITIES
TBD

4. SAFETY
Do not open the container near an ignition source.

5. PROCEDURE
Step 1: Send the completed record to Quality by e-mail.
Step 2: The operator must be trained on this procedure before starting.
Step 3: Check the area is clear of the previous product and its labels.
Step 4: Ensure that the second-person check is signed.
Step 5: Confirm the equipment status label shows clean and in date.
Step 6: Record the batch number in the logbook.

6. RECORDS
Records are kept for five years after batch expiry.

7. REVISION HISTORY
01 first issue.
